APPROACH TO
INTEGRATION

OUR MISSION

To provide high-quality, affordable health care services and to improve the health of our members and the communities we serve.
OUR SHARED AGENDA

Is our ambition to transform health and health care in America.
We believe that life, liberty, and the pursuit of happiness require total health — and that includes equal access to high-quality health care for all.

We believe that total health is more than freedom from physical affliction — it’s about mind, body, and spirit.

We believe that health care must be affordable for all — because thriving individuals, families, and communities require that.

We believe in a healthy and engaged life — with good beginnings and dignified endings.
